

THE PUBLIC DOMAIN.

Over a Million Acres in This Territory Entered During Fiscal Year.

INTERESTING FIGURES PRESENTED

During the fiscal year ended June 30, 1903, there were entered under the federal land laws 1,082,128 acres of the public domain in New Mexico, an area exceeding that of the state of Rhode Island and almost equaling that of the state of Delaware. Of his area 468,196 acres were taken up under the homestead act, representing over 3,900 entries. Under the desert land act 74,585 acres were taken up; under lien selections, 377,596 acres; under the mineral land act, 2,408 acres; under commutation, 2,556 acres, while the territorial selections amounted to 167,008 acres. The Roswell land district leads with 635,219 acres taken up; the Clayton district is second with 262,498 acres; the Santa Fe district third with 120,822 acres, while the Las Cruces district is last with 63,489 acres.

Among the counties Chaves leads with 354,131 acres segregated from the public domain; while Union is second with 147,449 acres and Eddy a close third with 147,440 acres. Then come the other counties in the following order: Roosevelt, 114,262 acres; Colfax, 59,565 acres; Quay, 44,262; Lincoln, 34,256; Taos, 30,589; San Miguel, 34,025; Otero, 23,350; Mora, 21,665; Grant, 18,031; Leonard Wood, 15,851; Socorro, 13,537; Valencia, 10,590; Santa Fe, 5,859; Dona Ana, 5,250; Sierra, 5,139; Rio Arriba, 4,499; Bernalillo, 3,831; Luna, 2,994; Sandoval, 2,477; San Juan, 2,049; McKinley, 1,276.

As to homestead lands taken up, the order of the counties is not quite the same. Roosevelt leads with 86,642; Chaves coming second with 67,449 acres, and Eddy third, with 49,511 acres. Then come the other counties as follows: Union, 47,038; Quay, 42,703; Colfax, 28,806; Otero, 18,258; Mora, 17,905; Lincoln, 15,445; Grant, 15,150; San Miguel, 15,145; Leonard Wood, 15,060; Socorro, 10,819; Valencia, 9,171; Santa Fe, 5,598; Sierra, 4,909; Dona Ana, 4,690; Rio Arriba, 4,282; Bernalillo, 3,671; Luna, 2,400; San Juan, 1,960; McKinley, 1,036; Taos, 320; Sandoval, 308.

Leonard Wood lies in three districts, those of Clayton, Santa Fe and Roswell. The following counties lie in two land districts: Colfax, Mora and San Miguel in the Clayton and Santa Fe districts; Roosevelt in the Clayton and Roswell districts; Socorro in the Santa Fe and Las Cruces districts; Valencia in the Santa Fe and Roswell districts; Otero in the Las Cruces and Roswell districts. Of the other counties Union and Quay are in the Clayton district; Bernalillo, McKinley, Rio Arriba, Sandoval, San Juan, Santa Fe and Taos, the Santa Fe district; Dona Ana, Sierra, Luna and Grant in the Las Cruces district; Chaves, Eddy and Lincoln in the Roswell district.

Although the land entries during the last fiscal year amounted to over a million acres, yet almost fifty million acres of the public domain in New Mexico still remain open to entry. Nevertheless, the time is measurably distant when the splendid public domain will have passed into private ownership or be included in forest or other reserves.

If the present rate of the segregation of the public domain is kept up it will be less than fifty years before New Mexico must put up the sign, "No more free homesteads."

You Know What You Are Taking. When you take Grove's Tasteless Chill Tonic, because the formula is plainly printed on every bottle showing that it is simply iron and quinine in a tasteless form. No cure; no pay; 50c.

Kendallville Academy Commencement Exercises.

The commencement exercises of the Kendallville academy, commercial school, normal and collegiate institute were held at the Congregational church Friday evening last. A large and representative audience was present, in spite of the threatening weather, to hear the productions of the class of 1903. Promptly at 8:15 the college procession entered the beautifully decorated building. First came the class of five graduates, then a representative of the junior class. Following these came the dignified members of the faculty with Dr. Squeers and Hon. J. P. Licklader bringing up the rear. As the imposing procession moved up the aisle and took their places on the platform there was a generous outburst of applause.

The program, typewritten on paper bags had been distributed among the audience and was successfully performed. The salutatory was pronounced by Miss Amelia Jonanna Snowball. Needless to say, she acquitted herself with credit.

Miss Patience Desaire Goodhope then read in a pleasing manner the extraordinary history of the class. A brilliant oration was then delivered by Archibald Algernon Higginbotham, and the class poem was read by Catherine Wilmahe Dewdrop. At a point in the exercises, the audience was favored with two selections on the violin by Prof. Robert Blair, rendered in his usual pleasing manner. A junior, Miss Bessie Blossom Bloomfield distributed appropriate gifts to the graduates, after which the college orchestra played a selection in splendid fashion. After the able valedictory by Phineas Meador Hunnicutt, President Squeer eloquently introduced the commencement speaker, Hon. John Philander Jay Licklader,

of Milkweed Springs, Posey county, Indiana. His address was a masterly effort, and in appreciation of his abilities the degree of R. F. D. was conferred upon him. Immediately after the exercises came the alumni reception.

SOCORRO FIRE.

Residence of Dominic Tabacchi Burned—Work of an incendiary.

The wild charging of the fire bell roused the citizens of Socorro from their slumbers at about 1 o'clock Sunday morning, says the Chieftain. The residence of Dominic Tabacchi in the western part of the city, recently finished and newly furnished, was seen to be in flames. The hose company was quickly at the scene, but it was then discovered that the wrenches had been taken from their place on the hose cart. This caused considerable delay and the result was the house and also the barn were practically ruined. The loss is only partly covered by insurance. The case seems one of the worse from the fact that Tabacchi by dint of industry and economy had just finished and furnished the house. In fact he was at Cat Mountain, where he had gone to fetch his wife to the new home, when the fire occurred. The fire was plainly the work of incendiaries. The ceiling, walls and floors of the rooms were thoroughly saturated with coal oil. The hose cart had also been tampered with to make the destruction sure. Such occurrences have been quite too common in Socorro of late for a feeling of peace and security on the part of the average citizen.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature on the part of the average citizen.

The Passing of the Town of Paraje.

The ancient town of Paraje will soon be a thing of the past. The mercantile interests of Mr. A. E. Roulier are to be transferred to this side of the river and located at the settlement of Santa Reola. Contracts have been let for the making and laying of the adobe of which the walls of the large structure will be composed, and the other material is being hauled on the ground. The Paraje store has always been an extensive concern, but the Santa Reola undertaking is on a much larger scale and better located to accommodate the growing trade of the ranchers, the sheepmen and the cattle-men tributary to that locality. Santa Reola will also be the headquarters of the extensive stock interests of Mr. Roulier. San Marcial instead of La Vaca will be the shipping point of Mr. Roulier and his business associates when the change of location is made. The Paraje postoffice will be discontinued in a few days, and similar action with the Paraje office is only a question of a few months.—San Marcial Bee.

FIRE FIENDS AT WORK.

Half a Dozen Small Fires Saturday Night and Yesterday Morning.

Is Albuquerque to suffer another epidemic of fires similar to that which occurred last spring, and destroyed much valuable city property?

Saturday night seven fires were started in the vicinity of the Santa Fe yards and under circumstances similar to those which surrounded the fires of the former carnage. One, which might have proved most disastrous, was in the warehouse of Gross, Kelly & Co., and six in Santa Fe rolling stock. The first mentioned did little damage, but for the accidental discovery of it made by A. W. Goodridge, bookkeeper for the firm, no telling what the conflagration might have been and the amount of the losses sustained.

It is very unusual that any employee of Gross, Kelly & Co. should be at the business house on Saturday night, and it seems an act of Providence that Mr. Goodridge went there Saturday night. However, his going there is probably responsible for the saving of many thousands of dollars worth of property.

He was crossing the railroad tracks on Railroad avenue, when on looking to the Gross, Kelly & Co. warehouse, he noticed flames or the reflection of flames through the window glass.

Running to the front office Mr. Goodridge opened the door between the wareroom and the office and looking some seventy-five feet between tiers of boxes of canned goods he could see the flames leaping toward the ceiling. He telephoned the alarm and with a bucket of water attached the fire. The department arrived and the fire was easily extinguished. A small hole in the heavy pine floor and some charred timbers are the only marks of the fire remaining and the damage is very small.

The Gross, Kelly & Co. warehouse was at one time the old Santa Fe freight depot and stands about three feet from the ground of pilings. The fire mania, for no doubt there is one, could easily crawl under the building and have plenty of room to start a fire. There is every evidence that the fire was the work of a fiend and that the fire was set from beneath the of the building.

BEAUTY DON'TS.

For Women Who Want Nice Trim Feet.

Don't neglect the care of the feet. There is an intimate connection between the feet and the complexion. It is only when the former are in good condition that a woman looks her best. Don't fail to put on a fresh pair of stockings daily. A single night's exposure to the air is insufficient to free stockings of moisture. Don't wear woolen stockings. Cot-

We seldom fear a danger that we cannot see. The danger of being run-down by a horse is a very real one to everybody, the danger of being murdered by a microbe does not trouble us. And yet the minute microbe is more dangerous than the wildest horse. The only people who can afford not to fear the microbes of disease are those who keep their blood pure and rich. These are practically immune from the attacks of most microbes.

Dr. Pierce's Golden Medical Discovery purifies and enriches the blood, and gives the body a vigorous vitality. It cures scrofula, eczema, boils, pimples and other eruptive diseases which are caused by impure blood.

"I had been troubled for about four years with eczema, or a skin disease, which at times was almost unbearable as it would itch so," writes Mr. John Larson of 115 Rowland St., Dallas, Texas. "I concluded to try Dr. Pierce's Golden Medical Discovery, and after using five bottles found that I was entirely cured. Please accept many thanks."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the blood.

Dr. Pierce's Pleasant Pellets cure constipation and its consequences.

ton ones are always preferable, except for persons who suffer from perspiration.

Don't wear tight, stiff or ill-fitting shoes or boots. They are the common cause of corns, causing pressure or friction on the projections of the bones.

Don't wear rubber overshoes in the house. Remove them at once. They interfere with the proper ventilation of the feet, as they are air-tight. If worn too much they cause tender feet, dizziness and headache.

Don't spend so much time learning the art of manicuring that there is no opportunity to practice pedicure. Take a few lessons from an expert chiropodist.

Don't attempt to treat a corn with oil first bathing the feet in warm water.

Don't use the chisel when a bit of pumice stone will answer the purpose. Don't cut the nails round. Make them square. I rounded like finger nails there is danger of their growing in, and nothing is more painful than an ingrowing nail.

Don't go to bed with cold or damp feet. If you wish to preserve your health. From a hygienic point of view a wet back should be less shunned than wet or cold feet.

Don't stand for any length of time on snow or ice or the cold ground. Many diseases may be traced to cold suddenly applied to the feet.

Don't think that a foot is beautiful because it is small. It must be in proportion to the stature—the instep moderately high, the toes regular, the heel nonprotruding and the general outline graceful.

Diplomacy.

The plump lady scrambled into the front seat of a suburban car.

The seat facing forward was filled, containing six women and one man.

So the newcomer had to sit on the other seat, facing the entire car load of passengers.

As the conductor's bell rang its startling "ding dong," and the motor woman turned on the current, the plump man occupying a place on the other seat.

"I think you might have been at least enough of a gentleman to offer to change places with me!"

"I had carefully considered that matter, madam, before you spoke," rejoined the man earnestly, "and had decided that for the good of all, we had better remain as we are. It would be an insult to the passengers back of us for me to sit facing them and showing my homely features after they had caught even a glimpse of your pronounced comeliness. They would resent the substitution and possibly do violence to both of us—do you understand?"

"Perfectly, my dear sir," replied she, with a smile, "and I wish to implore your pardon for having so underrated your gallantry."—Baltimore American.

Strike at La Junta.

It was announced at the Santa Fe general offices at Topeka Saturday that the Santa Fe shophmen had again gone out on a strike. This time they made a demand that the company re-instate a union man who had been discharged and when this was refused they walked out. It is probable that General Manager Mudge will go to La Junta in a few days to make an effort to settle the trouble.

SANTA FE.

From the New Mexican.

Mrs. A. P. Burleigh of Boston, arrived in Santa Fe and will make this city her home for a time.

Mrs. L. Brauford Prince and son W. B. Prince left for Colorado Springs where W. B. Prince will enter college. Sister Mary Ursula, former superior of St. Vincent's in this city, is at the sanitarium. One is now at the mother house at Cincinnati.

Mrs. Benjamin M. Read has returned from an extended visit to her father

in Mora county and is accompanied by her little niece, Adeleta Ortiz, daughter of Palemon Ortiz of Mora.

Mrs. J. B. Grozier of Denver, is the guest of Mrs. Charles L. Bishop of this city. Mrs. Grozier was formerly connected with the United States Indian school at Cochiti and has many friends in Santa Fe and vicinity.

Mr. and Mrs. W. H. Jack of Silver City, are in town en route to the extensive cattle ranches of the Crowfoot Cattle company in Colfax county and of which Mr. Jack is manager. Mr. Jack is in town attending to some business required of him as president of the Cattle Growers' association of New Mexico.

The sad news of the death of Mrs. Adrienne Straub, which occurred at her home at Mt. Pleasant, Ia., was received here this morning by her daughter, Mrs. Samuel G. Cartwright. The news was unexpected and a great shock to Mrs. Cartwright who leaves for Mt. Pleasant to attend the funeral.

LAS VEGAS.

Mrs. B. Brash entertained her two nephews, Robert and Samuel Kotowitz, for several days this week.

Mrs. J. E. Hurley, who received much social courtesy during her stay of ten days in the city, left for her home in Topeka.

R. T. Jaupert left for Columbia City, Ind., called by the sudden death of his sister, Mrs. Clugston. But a few days before word was received the lady was in robust health.

The prairie schooner is an uncommon enough sight in Las Vegas to be considered of some interest. Yesterday evening a four horse team drawing a large and somewhat dilapidated canvas house on wheels reached the city.

The outfit was driven by W. R. Allen of Cottonwood Falls, Kas., who was accompanied by his wife and several children. The trip from eastern Kansas had occupied several weeks.

Mr. Allen said that the only difficulty experienced was in crossing the Raton mountains. His horses were in fairly good condition when the city was reached. The destination is Mineral Hill, where Mr. Allen will take charge of the Adams saw mill.

Wardner W. E. Martin of the territorial penitentiary, who came over from Santa Fe yesterday and Assistant Warden F. H. Pierce, made a trip to the convict camp this morning. A pleasant feature of the visit was the release of three prisoners who had completed their time. The odious stripes were removed and the men given each a good suit of clothes, the usual amount of pocket money, brought to the city and restored to their cherished liberty.

Mr. Martin expressed the highest degree of satisfaction with the work done on the Las Vegas end of the Scenic Route. About twenty-five men are at work and excellent progress is making.

STRIKE SITUATION.

Plain Statements of Facts in Team Drivers' Walk-out.

DELIVERY OF GOODS BEING MADE.

The new features of the strike today were not numerous but quite interesting. Two of the coal-team drivers in the employ of W. H. Hahn, the East Railroad avenue dealer, went out; and the Teamsters' union was supplying drivers for John S. Heaven.

A citizen representative called at Mr. Heaven's office, First street, just below the viaduct, and found his yards presenting a busy scene. Mr. Heaven keeps no teams of his own, but Trimble & Co. have been doing his hauling under contract. The strike left him without union teamsters. He preferring that class of labor, the strikers were engaged this morning in supplying his wants as far as they could secure wagons.

In Mr. Heaven's yards, the reporter saw J. J. Ryan, financial secretary and treasurer of the Teamsters' union, who stated that there was nothing new on their side of the question; that they were confident of success, and that they intended to conduct the strike exclusively along peaceful lines. Mr. Ryan also stated that while there had been no meeting of the Central Labor union since the strike was ordered, yet the teamsters had been assured of the moral and, if necessary, the financial support of the Central Labor union, this body representing the twenty-two different unions in the city. In fact Mr. Ryan expressed himself as of the opinion that the teamsters have the sympathy of all union labor in Albuquerque.

B. B. Borden & Son were seen, and Mr. Borden stated that so far he had not been affected by the strike, and having signed the scale of wages, he did not anticipate having any trouble. It is true that he has in his employ one teamster, a very valuable man, who is not a member of the union.

Drying preparations simply developed catarrh, they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size. Ely Brothers, 56 Warren St., N. Y.

The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation. With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

PLAQUE OF THE NIGHT.

Keep Thousands of People in Albuquerque Awake.

Keeps you awake; can't sleep a wink. Bad enough if you lose your rest. But it's harder still to bear at work. Breeds misery day by day, profanity at night.

Know what it is? The bane of all classes of people—itching piles.

Itch, itch, itch. Nearly drives you crazy.

Hard to hear, hard to walk, hard to sit down.

Itching away, in any position, any time.

Don't stand it any longer.

There's a relief for everyone, prompt and permanent.

Doan's Ointment relieves at once.

Doan's Ointment cures permanently. Piles, eczema and all skin diseases.

Read what a local citizen says:

J. Johnston, machinist in the Santa Fe R. R. shops, residence 605 South First street, says: "When a man has itching hemorrhoids commonly called piles and he has to work every day the annoyance becomes positively a plague and he is more than anxious to get rid of it. When Doan's Ointment first came to my notice I wrote to the manufacturers for a box and used it as directed. It stopped the attacks. I have not the slightest hesitation in advising all residents of Albuquerque if annoyed in any way with hemorrhoids or piles to go to the Alvarado Pharmacy, buy Doan's Ointment, take a course of the treatment and the annoyance will cease."

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no substitute.

having been rejected because of his color both in Chicago and Denver. "But," said Mr. Borden, "as there was nothing in the agreement I signed concerning the employment of union labor exclusively, I have no apprehension of trouble."

W. H. Springer assured the reporter that he had not been seriously affected by the walk-out. He had been and still was able to meet all the demands made upon him by his patrons, but to do so he and his brother were having. The reporter noticed that Mrs. Springer was seated at the office desk.

W. H. Hahn was interviewed and stated that two of his drivers joined the strikers this morning by failing to report for duty. He also said that they never stated to him that they had a grievance, but that they went out without warning. "Had they come to me and told me what they wanted," continued Mr. Hahn, "I would have done everything in my power to meet reasonable demands." He also stated that twice representatives of the Central union had called upon him to sign a scale of wages, the scale containing a schedule of all hauling. "This he refused to do on the ground that he had but one kind of hauling and that was coal. He did not, therefore, think he had the right to sign a scale as to what other men should pay for their hauling. During the forenoon Mr. Hahn swore out warrants against Lou Wardell and Ed Rose, his two striking drivers, for breach of the peace, in that they had made threats against Ramon Gallegos, another driver, who refused to strike.

E. M. Bullard, treasurer of the Central union and financial secretary of the Federation of Labor, is employed in Mr. Hahn's office. From him the Citizen learned that the objection urged by some against the schedule of prices presented by the Teamsters' union is that it makes no difference in the wages of competent and incompetent men, the latter receiving the same pay as the former. A stranger, wholly unacquainted with the town and therefore necessarily much slower in delivery, must be paid the same wages as a man who has been here for years and knows the location of every house.

It was also learned from Mr. Bullard that there are two great labor federations in the United States, with one or the other of which nearly all labor organizations are affiliated. They are the American Federation of Labor, headquarters at Washington, D. C., of which Mr. Gompers is president; and the American Labor union, headquarters at Butte, Mont., of which Daniel McDonald is president. The latter is under control of the socialists, while the former, according to the utterances of Gompers, believe in keeping the unions out of politics. The unions here are affiliated with the American Federation of Labor, and according to the constitution of that order all strikes should be passed on at Washington before they are ordered, while no union less than twelve months' old and no member of less than twelve months' membership can receive aid from the national federation. As the Teamsters' union is something less than three months old, they will be dependent upon the local Central union for any financial aid they may need. These are facts about union labor organizations of which many are ignorant.

After many efforts the reporter succeeded in catching W. L. Trimble at his stables during the noon hour. "I have nothing to say," said Mr. Trimble; "because there is nothing new. We are meeting all the demands made upon us by our patrons, the same as before the strike, and we expect to continue doing so. Some of us are doing a little driving ourselves, but that is not hurting us and it will not last long."

When asked concerning the report that he had telegraphed his brother at

El Paso to bring up some teamsters, Mr. Trimble said there was not a word of truth in the report, even if a number of the strikers did go to the train for the purpose of meeting the El Paso contingent.

It may be added that no complaint has been heard by The Citizen from any merchant concerning the service now being rendered by the several transfer companies.

Team Drivers' Card.

To whom it may concern: Local Union No. 485, Team Drivers' International Union of Albuquerque, desire to lay before the public the causes which led to the present struggle between the union and the two principal transfer companies of this city: W. L. Trimble & Co., and the McSpadden-Springer transfer Co.

The condition which led to the organization of the union was most acute at Trimble's stables, where the men literally ate and slept with the animals. The wages ranged from 75c to \$1.00 a day with food supplied—food of a quality not fit for human beings—the men having the privilege of sleeping with the horses or rooming up town as fancy as the poor state of their finances should dictate. Since the organization of the union some improvements have been made at their stable. We invite the interested public to inspect the accommodations offered. The men themselves condemn them as wholly unfit. A committee from the Central Labor union has given a like report and we submit that these are not the conditions that should surround the lives of American citizens; that they are calculated to degrade rather than elevate men; that they lower rather than raise the moral and intellectual standard of citizenship; that men cannot under such conditions, make permanent homes here and that under such conditions are a blot upon the fair name of our city.

The members of our union are self-respecting American citizens whom sense of decency is shocked at such wanton disregard of comfort and indifference to the welfare of those who toil and we call upon all who desire to see justice done to help us gain the slight advance in wages which we demand—an increase of from 25c to 50c a day, allowing 75c a day for board.

The wages we ask as compared with those of other trades and with our own trade in other cities is very low and the hours long.

While our demands are reasonable, we deeply regret any inconvenience that have been caused the public by our refusal to longer accept conditions which must appear unfair to all fair-minded persons. We have exhausted every honorable means of reaching an amicable settlement with our employers and resort to a strike only when all other means have failed. We stand ready to submit our differences to any just tribunal and abide by its findings.

We only ask that those in sympathy with us use their influence to persuade our employers to grant our demands.

We have no wish to interfere in any way with the business of our employers. We simply assert the right to set a price upon our labor.

Executive Committee—

TEAM DRIVERS' INT. UNION.

HIGHLAND HOTEL.

It Has Been Leased by S. R. Symonds of Chicago.

Joshua Reynolds, president of the First National bank, which institution owns the Highland hotel, said this morning that he had closed a deal with S. R. Symonds of Chicago, leasing the latter the Highland hotel for a period of two years.

The Highland hotel, now conducted as a rooming house, under the new management, will be conducted on the European plan. Mr. Symonds hopes to have it in running order by September 15. The new proprietor comes well recommended and it is hoped that he will achieve success in his new venture.

The Santa Fe completed the purchase of five acres of ground alongside its tracks in Argentine, Kans., and between Argentine and Turner. The price paid was \$3,750. No announcement was made as to the use to which the ground would be put, but it was semi-officially stated that new tracks would be laid in the near future and added to the present yards. The Santa Fe is badly in need of much additional track room and the purchase of this land will make it possible to lay tracks where they are badly needed.

REMNANTS DEFEATED.

The Albuquerque Browns Win by the Close Score of 3 to 2.

At El Paso yesterday the Albuquerque Browns defeated the Pass City Remnants, in a very spirited game of baseball, by a score of 3 to 2. It was the best game of a series of three, the former games being won by the Pass City team. Rhodes did the pitching yesterday and was invincible. He changed his tactics of Saturday, when he used a speedy ball, to a slow ball, and the change proved effective. The features of the game were several brilliant double plays made by Cavanaugh, Vorhes and Helweg, with Vorhes as a pivot. The score was as follows:

1 2 3 4 5 6 7 8 9

Albuquerque 0 0 2 0 1 0 0 0—3

El Paso 0 0 1 0 1 0 0 0—2

The El Paso team will play in Albuquerque during the fair, and compete for the fair association's handsome baseball purse.

On Friday evening, a sheep herder named Gil Rivers, whose home is at Santa Fe and who was herding sheep four miles from Moriarty, this territory, was killed by lightning. He was lying in his tent at the time. When found one dog was dead by his side, while another was keeping watch over the remains, which had been fearfully burned from the waist downward.

Frank Farquharson, for years the foreman of the machine shops at Raton, has resigned that position, and his successor is George L. Bowen. Mr. Farquharson, before being transferred to Raton worked for a number of years in the local railway shops.

BOOSTED THE FAIR.

Sheriff Thos. S. Hubbell Talked Fair While at El Paso.

VERY COMPLIMENTARY WRITE UP.

One of the most distinct individualities and most pleasing personalities in the social and political life of New Mexico are combined in the popular sheriff of Bernalillo county, Captain Thomas S. Hubbell, who for the past ten years has served his county as sheriff, and he is one of the most capable and popular officers in the territory, says the El Paso Times, September 6.

Captain Tom Hubbell has no counterpart in New Mexico. He is one of those sunny optimistic dispositions that sees only the bright side of life; he is an inexhaustible reservoir of good humor, charged with a degree of personal magnetism that is delightful, and behind this pleasing personality is an individuality as fixed and determined as fate itself and so forceful as to make Tom Hubbell a powerful influence in shaping the political destinies of New Mexico. He laughs and jollies those of opposing views into a good humor while he leads them to the goal he has in view. He possesses the happy faculty of appearing to follow where he is leading.

But Captain Tom Hubbell is no political grafter; he makes his fights in the open and is loyal to his friends. He does not forget them after election day. The only objection that can possibly be offered to the popular sheriff of Bernalillo county, N. M., is that he is a republican; that is, he is a republican in New Mexico, but when he comes to democratic El Paso he is as good a democrat as any in Texas' democratic bunch. It is necessary to the welfare of the country that a few good men like Tom Hubbell should be found in the republican party. At present he is in El Paso where he has hosts of friends among people of both political creeds, and he is a particular favorite with the Elks of this city.

Captain Hubbell, wherever he goes, talks and works for Albuquerque, his home town. Yesterday he was around among El Paso's business men whooping up Albuquerque's fair, which begins on October 12 and runs until the night of the 17th of the same month. Speaking to a crowd in the Ziegler hotel about the fair, Captain Hubbell said:

"It will be bigger than ever this year and we shall expect El Paso to send a good crowd. You have to fill a couple of coaches. My friend Charlie Ziegler here, who has taught your people to enjoy good eating and drinking, was one of the first men to put up money for a fair at Albuquerque, and we want him to be with us this year."

"This year we will have the finest racing meeting ever held in the territory. Twelve thousand dollars in cash purses have been hung up and some of the swiftest horses in the west have already been entered. The racing alone will be worth going to Albuquerque to see. Then arrangements have been made for the biggest cowboy tournament and exhibition of broncho busting ever witnessed in the southwest. The cash prizes offered are large enough to attract the best riders in Texas, New Mexico, Arizona and Colorado. All the champions will be there. Yes, baseball will also constitute an attractive sporting feature of the fair."
